Video Portals: Unlimited Channel Programming for Consistent Engagement

Video Portals are an intuitive and secure enterprise platform for live and on-demand communications. Eliminate communication challenges through subscription-based unlimited webcasts. With Video Portals, companies now have the ability to set up a private “Corporate YouTube” environment that leverages easy-to-consume video content to build relationships and connect a global workforce.

Video Portals are an “always on” communication platform, accessible anywhere, anytime and from any device. With Video Portals comes the Program Wizard self-service tool allowing you to create a webcast in seven easy steps. Now any company can produce and deploy unlimited programs that can help foster employee interaction and share market intelligence.
Common Pain Points

Whether you’re hosting your first Virtual Event or looking to upgrade to a new solution – you’re not alone. Our diverse customers share one thing in common: they all have challenges made worse by costly and/or ineffective communications which lead to some of these pain points:

- Poor audience retention
- Inconsistent messaging
- Inability to measure impact
- Slow time to market
- Incremental revenue growth
- Rising costs in travel and accessibility to key stakeholders
- Lack of engagement

Key Benefits

Built on Intrado’s leading video platform for the enterprise, Video Portals enable you to deliver live and interactive communications programs that incorporate social elements like polls, moderated Q&A, live chat and social activity walls to make sure your audience is engaged and you’re receiving actionable feedback.

Benefits of Intrado Video Portals:

- **Disruptive Pricing:** A simple and effective subscription based pricing model allows you to deploy unlimited webcasts.

- **Streamlined Content Delivery:** A single destination portal designed to host new and existing content for your audience to engage with.

- **Intuitive Program Wizard:** This self-service tool allows anyone to develop, personalize and deliver powerful programming.

- **365-Day Environment:** Allow your audience to consume live and on-demand content all year round.

- **Increased Revenue:** Produce as many demand generation programs needed to fuel your sales pipeline and broadcast multiple channels at once.

- **Global Reach:** Video Portals are designed to support iOS, Android and Windows users without sacrificing any of the interactive features offered on desktop devices.

- **Robust Analytics & Reporting:** Capture key data to generate insights into target audience attitudes.

Use Cases

You want your audience to do more than just attend your webcast- you want them to be engaged, retain key information and take action. Whatever the use case, Intrado’s Video Portals are the most comprehensive video broadcasting single-destination platform designed to connect your audience with your content.

Some of the most common use cases for Video Portals are:

- Corporate Tube
- Partner Enablement
- Leadership Updates
- Press Announcements
- Employee Communications
- Town Halls
